### **DSM's Investment Team**

Experienced team dedicated to one single philosophy

### DSM's investment team specializes in quality growth companies worldwide

- Proprietary research used to identify and model quality growth companies, complemented by a rigorous valuation discipline used for both buying and selling positions
- 250 expert calls per year; buy-in research
- Analyst/PM's compensated on quality of work and firm performance
- "Buy", "Sell", and "Avoid" recommendations are equally important
- Investment team has significant ownership of DSM portfolios

The team's focus on proprietary research, in conjunction with a disciplined approach to valuation, results in a concentrated, benchmark-agnostic portfolio of 35-45 names

|   | Industry | DSM   |

### DSM and ESG

ESG is fully integrated into our investment process

#### DSM's investment team is responsible for DSM's ESG integration

DSM has a 7 person cross-functional Green Team led by it's 2 Deputy Chief Investment Officers (CIO's). The team also includes the COO, as well as team members from Compliance, Client Relations and Client Services.

The Green Team implements ESG best practices, establishes and oversees policies, leads firm-wide ESG initiatives, and promotes diversity and inclusion efforts.

The Deputy CIOs on the Green Team are also responsible for providing and coordinating ESG training to other members of the firm.

ESG Integration into Investment process

Identifying ESG issues with MSCI research

Evaluating MSCI scoring and company progress

Creating proprietary ESG score

Corporate Social Responsibility Active engagement with companies on ESG

**Proxy Voting** 

Committed to UNPRI

Additional information is available in the DSM Stewardship Report

## **Executive Summary**

Delivering value through deep perspective and focus

### A Global Investment Philosophy for Long-Term Growth of Capital

- Predictable earnings growth
- Disciplined valuation methodology
- Concentrated, high-conviction portfolio
- Long-term focus on quality companies

### **Experienced and Stable Investment Team**

- Investment team averages 24 years of industry experience
- Investment team average 13 years with DSM

### A Collegial and Engaged Culture Aligned with Our Clients' Interests

- Analyst/PMs compensated on firm performance and quality of work "Buy", "Sell" and "Avoid" recommendations equally important
- Team members have significant ownership of DSM portfolios
- Transparency ease of access and open communications with clients

# **Investment Philosophy**

Unwavering adherence to convictions and discipline

DSM believes that concentrated portfolios of carefully selected equity securities of quality companies - those that demonstrate predictable earnings growth and are attractively valued - hold potential for long-term outperformance of broad market indexes.

This philosophy drives DSM's distinct investment process, built on three core principles:

- Earnings growth drives stock prices higher
- Quality = Predictable revenue and cost structures
- Reasonable **valuation** reduces P/E compression risk

# Investment Decisions & Construction Disciplines

A consistent approach leading to repeatable outcomes

#### Defining the Universe / Growth Screens

# Fundamental Research & Analysis

#### Team Transaction Dynamics

# Portfolio Construction & Risk Management

#### **Sell Discipline**

- •Generally 10B+ USD market cap
- •Developed and Emerging Markets
- Screen on various financial metrics

- Quality
  - Identify companies with predictable revenue and earnings growth
- Growth
- Create detailed earnings models for candidate companies
- Valuation
- Select companies selling below intrinsic value to reduce risk

- •Lead analyst/PM initiate case
- •Lead analyst/PM presents
- •Investment team discusses
- •"Devil's Advocate"
  discussion
- Non-binding private vote by investment team
- Confirm analyst/PM conclusions

- Diversification
- Typically 5 to 7 sectors
- Exposure to major world regions
- General Weighting
- Typically 25 50 positions
- 1% to 2% weight to start
- 3% to 5% average weight at cost
- Up to 6% at cost for select investments
- •Risk Management
  - Focus on quarterly earnings results of each company
  - Evaluate common risks across holdings
  - Evaluate overlapping risks across industries, sectors, geographies

- Price appreciation reduces future return potential
- "On-deck" stocks offer more attractive return potential
- Risk of business deterioration
- Reduced revenue/earnings outlook

1200 Companies in the Global Universe

400-500 Companies DSM "Bench List" Globally

25-35 Companies DSM "On Deck" List

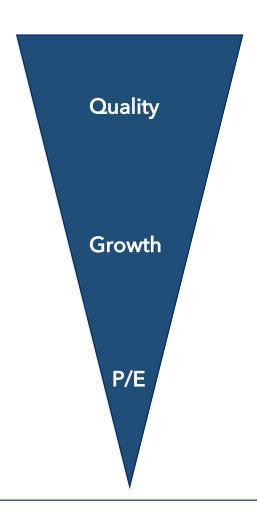

70-90 Companies DSM "Owned List" across all portfolios

### Attributes of a DSM Name

### **DSM Funnel**

#### 1. Identify quality growth businesses

Dominant player with growing share and widening moats
Growing TAM with stable industry structure
Solid balance sheet and returns on equity
Consistent management execution
ESG considerations

#### 2. Validate financial projections are predictable

Predictable and sustainable revenue growth
Stable or improving margins
Predictable cost structure
Predictable EPS growth

### 3. Buy when stock is reasonably valued

Lower entry valuation reduces P/E multiple risk and drives appreciation

Opportunistic purchases driven by near term stock pressure Buy when stock is near low end of historic P/E range

# Scenario Analysis

Disciplined framework for projecting return potential for individual equities

#### HYPOTHETICAL RETURN POTENTIAL

### **Elements of Expected Return**

- EPS growth
- Dividend yield
- Change in P/E ratio

### Setting the P/E Target

- Industry factors
- Stock-specific factors
- Macro factors
- Historic PE range

|                    | Most Likely Case Low Case |                      |  |  |
|--------------------|---------------------------|----------------------|--|--|
| Revs/EPS growth    | At forecast level         | Low end of potential |  |  |

### Investment Process Overview

ESG is fully integrated into our investment process

#### **Process**

We utilize MSCI's ESG Controversies and Ratings reports as a starting point to make adjustments to **FSG** Each Analyst/Portfolio Manager scores. at DSM completes thorough research on ESG issues impacting a company and assigns scores using a consistent in-house methodology. We store all ESG communications and developments a centralized research portal (Bloomberg) so that companies' ESG histories and DSM's ESG activities are available to all Analyst/Portfolio Managers. ESG scores are included in DSM's internal summaries and have an impact on DSM's investment ESG considerations and the decisions. implementation of ESG scores and in-house research have both kept DSM from investing in certain companies and have led to DSM selling portfolio holdings.

### **Impact**

At DSM. believe that ESG we considerations and engagement play a critical role in active management and responsible investing. Superior ESG outcomes are an important priority for the firm, our employees, our clients and our community. DSM is committed to maintaining an investment approach that fully integrates ESG in order to potentially reduce risk and adverse outcomes also identifying opportunities to while enhance our client's long-term returns. Our ESG framework incorporates ethics and sustainability into our investment decision making process. DSM has a proprietary scoring system for investments in our portfolio's. This system has quantitative and qualitative elements to reflect the severity, duration and remedy of ESG issues affecting the companies in which we invest. We find it essential for our clients to be able to trust the companies in our portfolios. We ensure that trust comes about when we thoroughly vet and identify paths of sustainable growth in companies we want to buy.

Additional information is available in the DSM Stewardship Report

### **Investment Process Overview**

ESG is fully integrated into our investment process - MSCI Research

DSM leverages its own fundamental bottom up research along with MSCI's input to create an adjusted score that better captures the risk and return associated with each stock. We use MSCI's Controversies and Ratings Reports system as a starting point and makes adjustments to ESG scores across five key categories: environment, customer, human rights & community, labor rights & supply chain, and governance. These five categories are then broken further into over 20 subcategories:

#### Environment

Biodiversity & Land
Use, Energy & Climate
Change, Operational
Waste (Nonhazardous), Supply
Chain Management,
Toxic Emissions &
Waste, Water Stress
and Other

#### Customers:

Anticompetitive
Practices, Customer
Relations, Marketing
& Advertising, Privacy
& Data Security,
Product Safety&
Quality and Other

# Humanrights& community:

CIVILIBERTIES,
Human Rights
Concerns, Impact
on Local
Communities and

# Laborrights&supply chain:

Child Labor, Collective
Bargaining & Union,
Discrimination &
Workforce Diversity,
Health & Safety, Labor
Management
Relations, Supply Chain
Labor Standards and

Other

#### Governance

Controversial Investments, Governance Structures and Other

# DSM ESG 5 key scoring basis categories
