NCG US Small Cap Growth Fund (the "Fund"), a sub-fund of the Candoris ICAV (the "ICAV")

ISIN: IE000TY23GV5 US Dollar Institutional 1 Class - as per Supplement

This Fund is managed by KBA Consulting Management Limited (the "Manager")

Objectives and Investment Policy

The investment objective of the Fund is to seek long-term capital appreciation. The Fund will pursue its investment objective by investing in normal market conditions at least 80% of its net asset value in US equity securities of small capitalisation traded on a Recognised Exchange. Up to 10% of the Net Asset Value of the Fund may be invested in non-US equity securities denominated in US Dollars including American Depositary Receipts ("ADRs"). The Fund may keep up to 10% of its Net Asset Value in cash or money market instruments including short-term US treasury bonds. From time to time, the Fund may invest to a greater extent in cash or cash equivalents (i.e. US treasury bonds) for defensive purposes.

The Investment Manager considers that a portfolio of high growth companies, combined with a strong sell discipline, will lead to a compounding of portfolio value over time.

The Investment Manager utilises direct research to identify and invest in companies with strong organic revenue growth that can be sustained for long periods of time and drive a compounding of company value over time. Direct research involves a detailed analysis by the portfolio managers of publicly available information on the investee companies which the Investment Manager uses to build proprietary financial models on each holding.

The key fundamental aspects sought for in an investment are:

- Superior Top-Line Revenue Growth.
- Large and Expanding Market Opportunity
- Leadership Position
- Economies of Scale
- Strong Management Team

The portfolio management team is multi-disciplined meaning that all the portfolio managers have expertise with and operate collaboratively on all aspects of the investment process for the portfolio.

The investments of the Fund will not be selected from any specific industry. The Fund will invest in companies in multiple sectors in the economy, as long as the Investment Manager's growth criteria are met. The Investment Manager considers that this team-based, generalist approach enables in-depth growth stock analysis, healthy stock specific and portfolio discussions, and a streamlined decision-making process.

The Fund is actively managed and the choice of investments is not made by reference to a benchmark. The Fund's performance is compared to the Solactive GBS United States Small Cap Index (the "Benchmark"). The Benchmark is not used to define the portfolio composition of the Fund or as a performance target and the Fund may be wholly invested in securities, which are not constituents of the Benchmark.

The Fund promotes environmental, social, and good governance characteristics through its investment selection process and the companies in which the Fund invests follow good governance practices.

You can sell your participation in this Fund back to the Fund on any business day in Ireland on which the value of the shares is calculated. The Fund does not declare dividends.

The Fund may not be appropriate for investors that aim to withdraw their money within 5 years.
