This document was published on 1 January 2024.

You are about to purchase a product that is not simple and may be difficult to understand.

## What is this product?

### Type

This product is a UCITS Fund.

### Term

The Fund has no maturity date.

### Objectives

#### Investment objective

The Fund's investment objective is to seek: (i) high current income; and (ii) capital appreciation.

#### Investment approach

The Fund seeks to implement its investment objective by primarily investing in a diversified portfolio of fixed income securities which may be fixed and/or floating rate, of any maturity and that are generally rated below investment grade (i.e. rated as Ba or lower by Moody's Investors Service, Inc. or BB or lower by Standard & Poor's Ratings Services or Fitch, Inc.) or deemed to be below investment grade by Strategic Income Management, LLC (the "Investment Manager") or unrated.

#### Investment policies

The Investment Manager has three principals in selecting investments in issuers. First, in selecting its investments the Investment Manager seeks to gain exposure to issuers operating in industries with positive long-term trends. Second, the Investment Manager seeks to avoid investing in issuers operating in industries it considers ill-suited to high levels of leverage. Finally, the Investment Manager analyses investments from the perspective of a chief financial officer of that issuer. The resulting selections comprise the Fund's "core" portfolio which tends to be less capital intensive and less cyclical overall than the general high yield market. In addition to this "core" portfolio, the Investment Manager will also

opportunistically seek to invest in issuers operating in "out-of-favour" industries. The Investment Manager has also historically invested about one-third of the portfolio in "smaller issuers", that is, issuers with total bonds outstanding of \$500 million (or currency equivalent) or less.

#### Benchmark

The Fund is actively managed and the choice of investments is not made by reference to a benchmark. The Fund's performance is compared to the ICE BoAML US High Yield Index Euro Hedged (the "Benchmark"). The Benchmark is not used to define the portfolio composition of the Fund or as a performance target and the Fund may be wholly invested in securities, which are not constituents of the Benchmark.

#### Redemption and Dealing shares

You can buy and sell shares on any business day (generally a day in which banks in Ireland or New York are open) on which the value of the shares are calculated,, exceptions to this are more fully described in the fund holiday calendar available from the Administrator.

#### Distribution policy

Accumulation shares do not pay dividends. The annual result is capitalised (or reinvested).

#### Intended Retail Investor

This Fund is designed for retail and institutional investors seeking pooled exposure and who are comfortable with a higher level of investment risk. It is expected that the Fund will be held as part of a diversified portfolio of investments. This Fund has been designed to form part of a broader portfolio of investments. It may also be suitable as a significant component of an investors overall portfolio and should be purchased with advice or on an execution only basis by a basic investor. Investors must be able to bear loss of capital in order to seek to generate higher potential returns.

## What are the risks and what could I get in return?

### Risk

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 3 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium-high level and poor market conditions could impact the value of your investment.

For other risks materially relevant to the product which are not taken into account in the summary risk indicator, please read the product's Annual Report or Prospectus available at [www.candoris.nl](http://www.candoris.nl)

This product does not include any protection from future market performance so you could lose some or all of your investment.

Be aware of currency risk: In some circumstance, you may receive payments in different currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

While the Fund may attempt to hedge against currency fluctuations for non-USD classes, there can be no guarantee that the value of such class will not be affected by fluctuations in the USD against the relevant currency.

## Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of Fund over the last 5 years. Where the fund does not have 5 years of historical data, the relevant benchmark data is used. The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period		5 years	
Investment		€ 250,000	
Scenarios		If you exit after 1 year	If you exit after 5 years (recommended holding period)
There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress	What you might get back after costs	€ 216,798.39	€ 186,064.81
	Average return each year	-13.28%	-5.74%
Unfavourable	What you might get back after costs	€ 235,059.49	€ 231,418.96
	Average return each year	-5.98%	-1.53%
Moderate	What you might get back after costs	€ 259,061.20	€ 282,414.02
	Average return each year	3.62%	2.47%
Favourable	What you might get back after costs	€ 276,783.76	€ 334,108.27
	Average return each year	10.71%	5.97%

## What happens if Candoris ICAV is unable to pay out?

If the Candoris ICAV are not able to pay you out what is owed to you, you are not covered by any national compensation scheme. To protect you, the assets are held for safekeeping in accordance with the UCITS Regulations with a separate company, a depository. In worst case, however, you would lose your entire investment.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed, in the first year you would get back the amount that you invested (0 % annual return). For the other holding period, we have assumed the Fund performs as shown in the moderate scenario.

Investment: € 250,000	If you exit after 1 year	If you exit after 5 years (recommended holding period)
<b>Total costs</b>	€ 2,075.00	€ 10,630.73
<b>Annual cost impact (*)</b>	0.83%	0.83%

(\*) This illustrates how costs reduce your return each year over the holding period.

**Composition of costs**

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
<b>Entry costs</b>	We do not charge an entry fee for this product, but the person selling you the product may do so.	0
<b>Exit costs</b>	We do not charge an exit fee for this product, but the person selling you the product may do so.	0
Ongoing costs taken each year		Annual cost impact if you exit after 1 year
<b>Management fees and other administrative or operating costs</b>	The management fees, other expenses and currency hedging fees (if applicable) are fixed. The costs will not rise above nor fall below these fixed costs.	\$ 2,075.00
<b>Transaction costs</b>	0.0034% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments of the product. The actual amount will vary depending on how much we buy and sell.	\$ 8.50
Incidental costs taken under specific conditions		Annual cost impact if you exit after 1 year
<b>Performance fees</b>	There is no performance fee for this product.	0

**How long should I hold it and can I take money out early?****Recommended holding period: 5 years**

The Fund is designed to be held over the medium term and we recommend that you hold this investment for at least 5 years.

You can request to take out some or all of your money at any time, without penalty, or hold for a longer period. You can typically request to buy or sell shares in the Fund on any business day in Ireland or New York subject to the terms set out in the section 'Key Information for Buying and Selling' of the Funds' Supplement (which together with the prospectus constitutes the Prospectus).
